CRIMINAL BACKGROUND CHECKS: IMPORTANT NOTICE!

STUDENTS WITH CRIMINAL CONVICTIONS SHOULD CONSIDER ANOTHER PROFESSION.

Criminal background checks are mandatory for all nursing, nurse aide and allied health students at the student's own expense.

All information gained will be held in strictest confidence.

Students with felonies or certain misdemeanor convictions will **NOT** be admitted as outlined below.

Students entering a nursing, nurse aide or allied health program must give permission to do a criminal activity check to comply with Michigan Compiled Laws, Section 333.20173. No student will be admitted to the program if convicted of a felony, or attempt/conspiracy to commit a felony within 15 years preceding the date of admission; or a misdemeanor conviction involving abuse, neglect, assault, battery, criminal sexual conduct, fraud, theft (or similar misdemeanor in state or federal law) against a vulnerable adult within 10 years of conviction.

Additionally, ANY criminal convictions may prevent admission to nursing/allied health or nurse aide program/course. Applicants should know that **criminal activity of any sort may prevent:**

1. Clinical placements in the program (making success in the program impossible).
2. The ability to be licensed as a nurse or other healthcare worker.
3. Employment in the field of nursing, nurse aide care or allied health professions. Employers do not have to hire anyone with a criminal background and some employers are refusing to hire those who have past criminal activity.

Criminal activity associated with substance abuse is particularly damaging to the candidacy of an applicant.

Currently the Michigan State Board of Nursing investigates candidates eligible to sit for nursing/allied health or nurse aide licensure for the following issues:

1. Felony conviction.
2. Misdemeanor conviction punishable by imprisonment for a maximum of 2 years.
3. Treatment for substance abuse in the past 2 years.
4. Malpractice settlements. Awards or judgments in the past 5 years.
5. Having federal or state health professional license or registration revoked, suspended, or otherwise disciplined; been denied a license; or currently with disciplinary action pending against the applicant.
6. Having been fired, censured, or requested to withdraw from a health care agency staff or have your staff privileges involuntarily modified.
7. Filed or written a licensing application in another US jurisdiction.
8. Filed a license application in Michigan.
9. Hold another license in another state.

A determination is made by the state at that point whether or not the candidate may be licensed. No one at GOCC can make the decision about eligibility for licensing. We can only confer a certificate or degree, not a state license to practice nursing or any other healthcare occupation. Questions or concerns about licensing should be directed to the MSBON at http://www.michigan.gov/lara/0,4601,7-154-63294_75200---,00.html or to the state agency regulating other healthcare occupations.

Due to recent enactment of a new Michigan law, many health care employers are routinely not hiring anyone with criminal backgrounds, regardless of licensure status. Also, all health care agencies routinely drug screen applicants for jobs and employees randomly to maintain patient safety and to curtail the employer's liability.

Nursing & Allied Health Policy

Criminal Background Check Policies

Changes are taking place within the healthcare facilities at the national and state levels in order to maintain the safety of patients/clients within their agencies who are receiving care.

In September 2004 the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), which accredits healthcare facilities across the nation, enforced background screening and has set requirements mandating that students in a healthcare field must now complete the same background check as hospital employees.

February 2006, Governor Jennifer Granholm signed legislation to strengthen criminal background checks in long term care facilities stating, "This legislation is to protect our state's most vulnerable citizens". Long term care will include skilled nursing facilities, long-term care hospitals, hospitals with swing beds, intermediate care facilities for persons with mental retardation, home health agencies, residential care and assisted living facilities and hospices. This law is in effect as of April 1, 2006.

To be in compliance with JCAHO requirements, the above law and the Michigan Compiled Laws Section 333.20173, students in nursing and allied health programs, must complete background investigations to be able to use clinical sites. The student will incur the cost of the background investigation. The nursing and allied health department contracts with an outside agency to conduct these services.

Admission or readmission to any healthcare program will be denied for the following:

Any felony conviction or attempt/conspiracy to commit a felony within 15 years preceding the date of admission.

OR any misdemeanor within 10 years prior to application that involved or is similar to the following:

1. Abuse, neglect, assault, battery
2. Criminal sexual conduct
3. Fraud or theft against a vulnerable adult (as defined by the Michigan penal code or similar misdemeanor in state or federal law), but not limited to such crimes against a vulnerable adult.
4. Criminal activity involving controlled substances such as sale, possession, distribution or transfer of various narcotics or controlled substances.
5. Any alcohol related misdemeanor.

Once admitted to a allied health/nursing program or nurse aide course, students subsequently convicted of crimes listed above will be dismissed from the Nursing Program or Nurse Aide Course. It is the student's responsibility to report changes in the status of his/her criminal background to the Director of Nursing.

How to Complete the ICHAT Michigan Criminal Background Check

What is ICHAT?

The Internet Criminal History Access Tool (ICHAT) is a public, self-serve website managed by the Michigan State Police. Record searches will only display criminal records occurring in Michigan up to the date the report is requested.

Why is ICHAT Required?

The CHDV program requires that students successfully complete field experiences with a licensed child care provider. A provider's license may be jeopardized if the State of Michigan learns through the required criminal history background clearance that they or an adult age 18 and over who is employed by them or in practicum with them, has a pending criminal charge or has been convicted of certain various crimes.

In order for the Program to be in compliance with Michigan Licensing Rules for Child Care Centers, Public Act 116 of 1973, a Criminal Background investigation is required of all students completing field experience(s) at Early Learning Children's Center (EarlyLCC).

Admission to the Program may be denied for felony and certain misdemeanor convictions. For
